CAREER OBJECTIVE

Flutter and Backend Developer passionate about building scalable mobile and web applications using Flutter, Java, MongoDB, and Firebase. Interested in backend systems, mobile app development, and real-world software engineering projects while continuously improving problem-solving and development skills.

EDUCATION

Sagar Institute of science Technology & Research Ratibad Campus Bhopal 2024 to 2028

- Bachelor of Technology
- Computer Science & Engineering
- CGPA : 7.93

PROJECTS

Digital Web Portfolio

HTML | CSS | JavaScript | Cloudflare | github.com/kunal7828-soni/Web_portfolio | kunalsoni.codes

- Built a responsive personal portfolio website to showcase projects, technical skills, certifications, and development experience.
- Optimized website performance and deployed using Cloudflare for fast and reliable access.
- Integrated GitHub project links and responsive UI for mobile and desktop devices.

Web Store

HTML | CSS | JavaScript | github.com/kunal7828-soni/Apk-Pocket

- Developed a web platform for uploading, managing, and downloading Flutter APK files.
- Implemented file management functionality with responsive user interface design.
- Used GitHub for project version control and collaboration.

Attendance Managment System

Flutter | JSON | github.com/kunal7828-soni/Attendance-Managment-System

- Developed an attendance management application where Class Representatives can mark and manage attendance records.
- Added attendance sharing and report management features for faculty coordination.
- Designed a simple and user-friendly interface for efficient attendance tracking.

Trip Dairy Management System

Flutter | JSON | Excel | github.com/kunal7828-soni/Trip-Dairy-Managment-System

- Built an expense tracking and trip management application to monitor travel costs and maintain trip records.
- Implemented expense categorization and report generation features.
- Managed local data storage and trip history efficiently.

Certificate Generator + Sender

JavaFx | Mail | Excel | github.com/kunal7828-soni/Certificate-Generator-Sender

- Developed a certificate generation and email automation system using JavaFX and Excel integration.
- Automated certificate creation and bulk email sending process.
- Reduced manual work by generating certificates directly from Excel data.

SKILLS

- **Programming Languages:** Java, Dart, C, C++
- **Frameworks & Tools:** Flutter, JavaFX, Git, GitHub
- **Web Technologies:** HTML, CSS, JavaScript
- **Databases:** MongoDB, MySQL, Firebase
- **Core Concepts:** Object-Oriented Programming, Problem Solving , Data Stucture

CERTIFICATIONS

- C++ Advanced Issued by Cisco Networking Academy,
- Git Fundamentals Issued by Udemy
- DSA Issued by HP
